

Paul Stroe

Toward an atlas of cardiac development in the zebrafish with a focus on the valves

Willy Supatto, CNRS, Ecole Polytechnique, France

Peter Majer, Oxford Instruments-Bitplane, Switzerland

Inserm

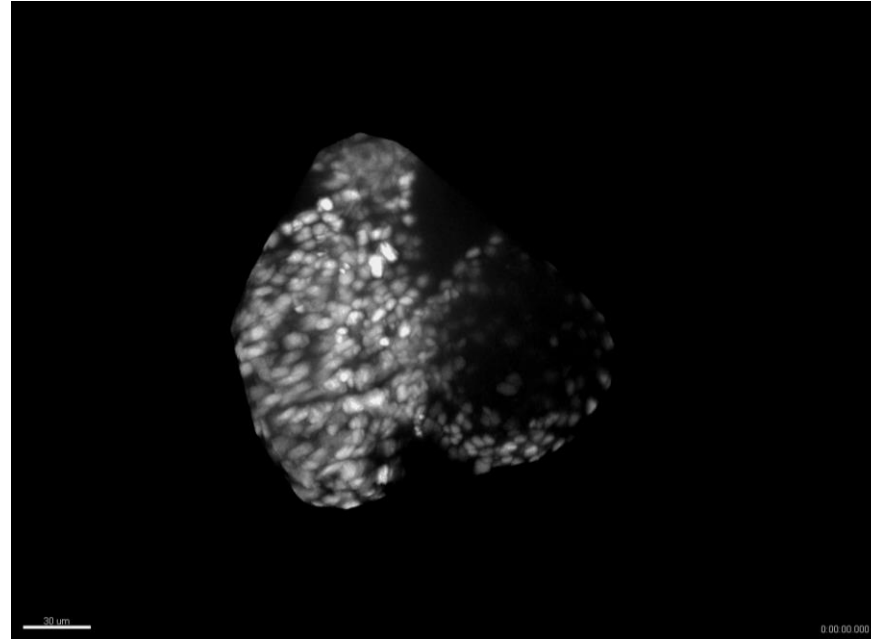

Project aims

01 #One

in vivo imaging to evaluate cellular behavior in a beating heart during development and regeneration

02 #Two

Move from qualitative and isolated observations to quantitative and systematic representations of the zebrafish cardiac morphogenesis

Live imaging of zebrafish heart
